

EX.NO.03	JAVA APPLICATION FOR PAYSLIP GENERATION
23/07/19	

AIM:

To develop a java console application to find the gross and net salary using inheritance.

REQUIREMENT:

Develop a java application to create a package payroll and to create the class as employee with emp_name,emp_id,address,mail_id,mobile_no as data members.

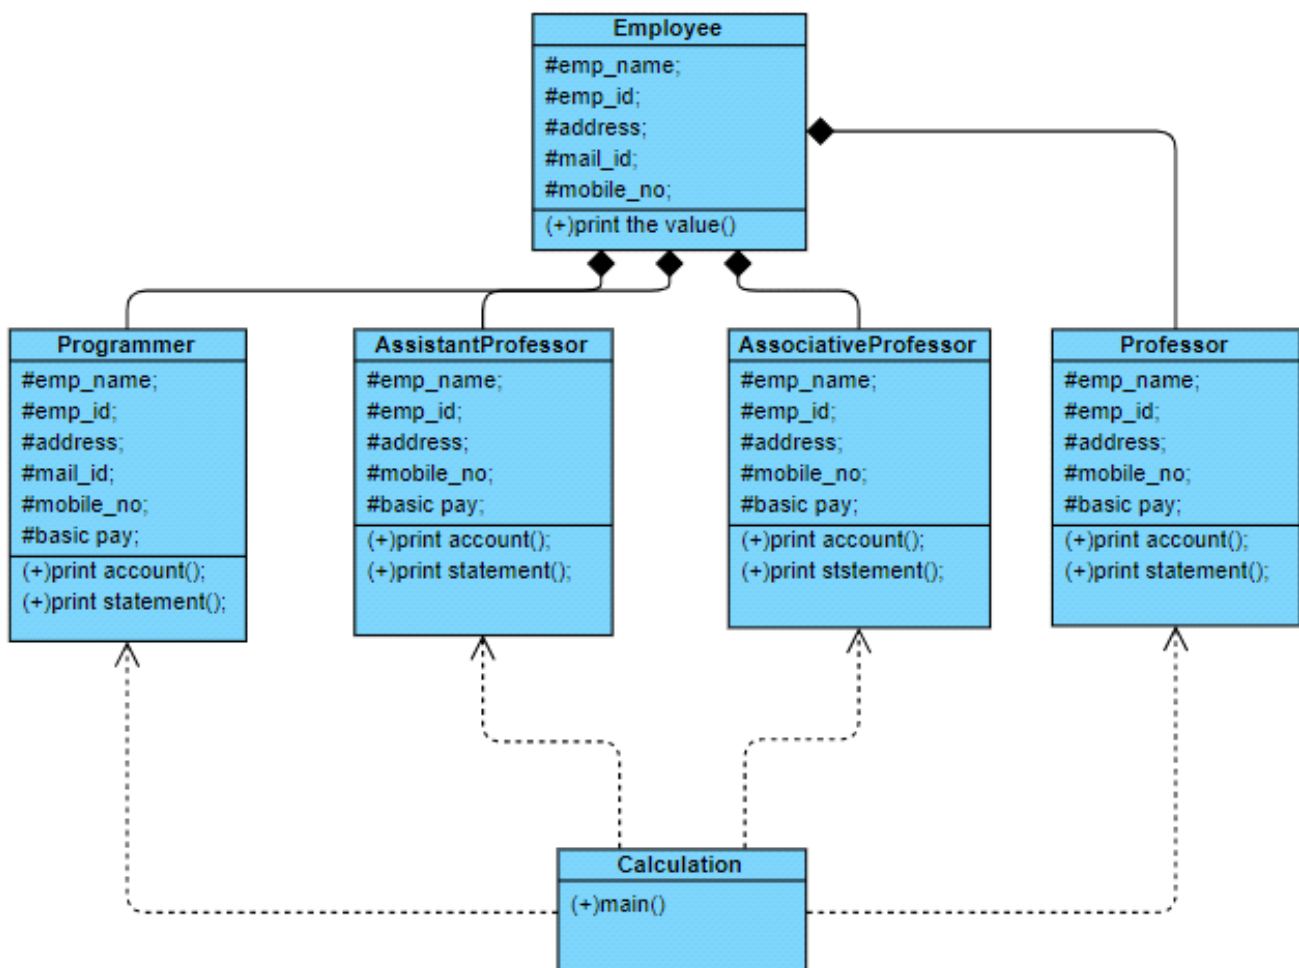

Inherit the classes as programmer,assistantprofessor,associativeprofessor,professor.add the basic pay as data member for these classes.

create the class calculation to print the DA,HRA,PF,Staff club fund,gross salary and net salary for the inheritance classes.

ALGORITHM:

1. Declare a package payroll.
2. Declare the class as employee.
3. Declare a constructor and add the data members.
4. Inherit the classes from the super class and add the data members as basic pay.
5. Calculate the gross salary and net salary on the inheritance.
6. Display the result.

CLASS DIAGRAM:

PROGRAM:

```
/**
 * program to represent employee details
 * @author V.Aakash
 * aakashvelu26@gmail.com
 */

package Payroll;

public class Employee {
    protected String emp_name;
    protected long emp_id;
    protected String address;
    protected String mail_id;

    protected long mobile_no;

    public Employee()
    {
        emp_name="name";
        emp_id=123123;
        address="not given";
        mail_id="not given";
        mobile_no=91637543;
    }
    public Employee(String n,long id,String add,String mail,long num)
    {
        emp_name=n;
        emp_id=id;
        address=add;
        mail_id=mail;
        mobile_no=num;
    }
    public void printaccount()
    {
        System.out.println("Name of the employee:"+emp_name);
        System.out.println("Employee ID:"+emp_id);
        System.out.println("Address:"+address);
        System.out.println("Mail ID of the employee:"+mail_id);
        System.out.println("Mobile number of the employee:"+mobile_no);
    }
}

/**
```

```

```

CALCULATION:

```
/* Program to represent gross and net salary
 * author@V.Aakash
 * aakashvelu26@gmail.com
 */
package Payroll;

public class Calculation {

    public static void main(String[] args) {
        Programmer pro;
        AssistantProfessor Asspro;

        AssociativeProfessor Asopro;
        Professor prof;
        pro=new

        Programmer("sunitha",17001300,"Chennai","account@gmail.com",90000000001,60000);

        Asspro=new

        AssistantProfessor("mahesh",17001301,"Chennai","account@gmail.com",700000000011,70000)
        ;

        Asopro=new

        AssociativeProfessor("mahalakshmi",17001302,"Chennai","account@gmail.com",400000000011
        ,80000);

        prof=new

        Professor("nithin",17001303,"chennai","account@gmail.com",20000000001,100000);

        pro.printAccount();
        Asspro.printStatement();
        Asopro.printStatement();
        prof.printStatement();
    }

}
```

OUTPUT:

Name of the employee:sunitha
Employee ID:17001300
Address:Chennai
Mail ID of the employee:account@gmail.com
Mobile number of the employee:9000000000
Basic pay:60000.0

Name of the employee:mahesh
Employee ID:17001301
Address:Chennai
Mail ID of the employee:account@gmail.com
Mobile number of the employee:7000000001
Basic pay:70000.0
duty allowance(DA):67900.00
HRA:7000.00
PF:8400.000000
staff club fund:70.00
gross salary is:83370.00
net salary is:74900.00

Name of the employee:mahalakshmi
Employee ID:17001302
Address:Chennai
Mail ID of the employee:account@gmail.com
Mobile number of the employee:4000000001
Basic pay:80000.0
duty allowance(DA):77600.00
HRA:8000.00
PF:9600.000000
staff club fund:80.00
gross salary is:95280.00
net salary is:85600.00

Name of the employee:nithin

Employee ID:17001303
Address:chennai
Mail ID of the employee:account@gmail.com
Mobile number of the employee:2000000001
Basic pay:100000.0
duty allowance(DA):97000.00
HRA:10000.00
PF:12000.000000
staff club fund:100.00
gross salary is:119100.00
net salary is:107000.00

RESULT:

Thus the java application for generation of pay slip is developed by using inheritance classes.
